INDIA: GROWTH IN MOTION

India's growth story is anchored by a strong foundation in enterprise, capital markets, policy reform, and innovation.

As the world's 4th largest economy, India leads across technology services, manufacturing, digital infrastructure, and financial markets, supported by a rapidly expanding startup ecosystem and world-class human capital. This momentum is reinforced by consistent reforms, institutional strength, and a maturing business environment.

Together, these forces are helping India move from a high-growth economy to a global economic power.

PRESENTS

**BUSINESS
CONCLAVE
& AWARDS 2026**

WHERE BUSINESS MEETS TECHNOLOGY

OVERVIEW

ETNOW.in Business Conclave & Awards 2026, will be a half day forum in New Delhi, that will bring together India's most influential policymakers, business leaders, and industry experts to examine the country's growth trajectory and its role in the global economy.

The conclave will explore how policy direction, innovation, investment, and inclusive development can unlock India's long-term growth ambitions.

It serves as a premier platform to discuss macroeconomic priorities, sectoral opportunities, and structural reforms shaping India's future.

SECTORS IN FOCUS

**GLOBAL CAPABILITY
CENTERS (GCC)**

EDUCATION

INFRASTRUCTURE

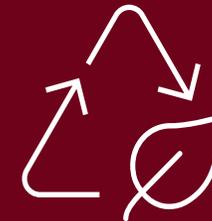

EMERGING TECH

HEALTHCARE

MANUFACTURING

RENEWABLE ENERGY
